

Why customers buy OpenText RightFax

Improve Efficiency - Save Money . . .

Market Leader

World leader in fax server software, with a market share five times larger than its nearest competitor.

Cost Reductions

RightFax delivers a significant reduction in fax and document delivery costs by eliminating the need for paper-based delivery, stand-alone fax machines and associated maintenance, supply, equipment and labour costs. *(Please refer to ROI for saving calculation)*

Security and Compliance

A trusted and reliable fax server and electronic document delivery solution that will help organisations comply with regulations and safeguard information security and privacy. *Security regulations include MiFID & PCI-DSS Compliance.*

User Benefits

Significantly reduces the time it takes employees to exchange documents with customers or suppliers — resulting in faster sales cycles, quicker customer service and improved efficiency.

Administrator Benefits

Single point of administration, with a reduction in overhead for manual fax machines; centralised communication gateway.

Integrations and benefits

Fax over IP (FoIP) - unites fax with voice and data traffic onto a single IP network and centralises fax services to reduce remote administration costs.

Email Fax - unifies network fax and email in a single inbox to make it easy to increase productivity and manage communications.

Production Fax Automation - automates delivery of invoices, purchase orders and other documents from host, legacy, CRM and ERP systems such as SAP and Oracle, improves security while streamlining business processes and reducing costs.

MFP Fax - integration with MFPs consolidates document development, duplication and distribution capabilities making a more connected, efficient work environment.

Desktop and Broadcast Fax - desktop fax and broadcast fax capabilities allow users to conveniently fax a single document to an individual or broadcast fax documents to fax groups or a fax distribution list.

Green – Carbon Footprint

A green alternative to the energy inefficient, energy wasting and paper wasting hardware needed for traditional faxing.

ROI Considerations

Annual Cost of Existing Fax Solution

ANALOGUE FIXED LINES

Example

How many direct analogue lines?

20

X £14.00 per line, per month

£

240.00

X 12 Months = **Annual cost of analogue lines**

£

3,360.00

(example:- 20 analogue lines @ £14.00 per line =
£240.00 per month X 12 = £3,360.00)

FAX MACHINE CONSUMABLES

Based on 3 cartridge replacements + paper per fax machine per year

How many fax machines?

20

X £330.00 consumables per fax machine
= **Annual cost of fax consumables**

£

6,600.00

(Example 20 fax machines @ £330.00 = £6,600.00)

LABOUR SAVINGS - Outbound faxing

Based on 250 working days per year, average 4 mins to send a manual fax

Average number of faxes sent per employee, per day

2

Number of employees

200

Average hourly wage

£

10.00

Labour cost per day manually faxing

£

266.00

Labour cost of manual faxing per year

£

66,500.00

(example, 2 faxes sent per day @ 4mins per fax = 8 mins X 200 employees = 1600 mins per day. 26.6 hours X £10.00 per hour = £266.00 per day X 250 working days per year = £66,500.00)

Annual labour cost to send through RightFax cost – 1 min per fax =

£

16,625.00
